

# Grower Technical Seminars Registration Form

## Tuesday 8 March 2016

Miramar Golf Links, adjacent to Wellington Airport

NGINZ Grower Sector invites you to a day of informative and practical seminars, where you can fly in and fly out in one day.

This is intended as a low cost practical day giving growers a chance to learn about new technologies and products. There will be speakers talking for approx 30 minutes each on various topics and time for networking. This is a good opportunity to send along some of your staff who would benefit also.

Members of the Association and non-members are all welcome - please invite someone in the industry near you. Book your flights now for good deals.
