

# CONFERENCE 2019

**MAKING BUSINESS MODERN**  
A SCIENCE & INNOVATION FOCUS  
15-16 MAY 2019, TAIT TECHNOLOGY CENTRE

Attending the NZPPI Conference 2019 is an opportunity to be part of the big conversation about plant production and promotion going forward in an environment of rapidly advancing plant science and infrastructure technology.

We are bringing conference to the South Island and have secured a wonderful modern venue. Top notch catering and a Gala Dinner at the Sudima with guest speaker Liam Malone will complement your conference experience.

Feedback from last year is that we need more conversations after speakers and workshops. This will happen. We also heard that you were moved by inspirational speakers that went to the personal level of success.

## Speakers in our line up so far are:

**Ian Proudfoot**, head of Agribusiness, KPMG  
**Mike Chapman**, CE Horticulture NZ  
**Philip Hulme**, Plant & Food Research  
**Leanne Watson**, CE Canterbury Chamber of Commerce  
**Alan Curtis**, former CE Irrigation NZ  
**John Manhire**, Sustainability Dashboard  
**Andrew Allen**, Turners & Growers

And we are waiting to hear back from some other exciting speakers and shaping up the retailer breakout sessions. We are aiming for a casual tour of the famous Tait Electronics workshops.

Early bird registrations receive a large discount so please talk to your team and organise who can come and register as soon as you can.

We are excited about seeing you and are sure others in the sector will be very pleased to meet with you and people from your team.

## Feedback from last year:

*"I really enjoyed it. There was a good mix of speakers to cater to the broad range of interests. They were all quite different which was great, Liked the networking too."*

*"I really think conference was very balanced."*

*"Less speakers please and more time to feedback to board and talk about the top issues."*
