

Industry Partner Membership 2024

NZPPI supports your business and our industry

At NZPPI, we believe in working together with the greenlife and garden retail sector to ensure we achieve great outcomes.

The greenlife and retail sector is critical to the wellbeing of all New Zealanders. NZPPI is working hard to raise awareness that the sector is as vital as other horticulture sectors.

Our collaborative, not-for-profit structure enables us to work across the entire industry, taking care of the issues you can't tackle on your own.

We are the voice for greenlife and garden retail

 NZPPI ensures that the voice of greenlife and garden retail is heard in forums with Government and the wider horticulture industry.

 We are winning the fight to keep the border open to allow safe access the elite plant material from trusted offshore breeding facilities. This work benefits everyone in our industry.

 We are working across the industry to meet the deadline for new waste regulations covering plastic plant pots, trays and labels, that will apply from 2025.

 We speak for greenlife and garden retail horticulture in areas such as biosecurity, pest plants, HSNO. We work to enable plant movements around the country and ensure that the rules about what you can sell are workable and clear.

Your NZPPI Membership enables us to continue to do this work.

We provide a unique range of services to the garden retail industry

As a not for profit society, we are able to provide a range of services at scale and low cost. NZPPI makes these services possible.

Your industry has a fleet of 4,500 NZPPI plant trolleys that move plants efficiently across the supply chain at the lowest possible cost. The efficiency and open access of our system is unique in the world.

Go Gardening magazine reaches more than 200,000 gardeners annually. It promotes gardening and connects retailers with the community.

gogardening.co.nz

We highlight the importance of greenlife to the health and wellbeing of New Zealanders.

During the Covid 19 crisis, NZPPI successfully advocated for worker exemptions to enable them to maintain plants in nurseries and garden centres. Our advocacy was based on the critical importance of home gardening for wellbeing and for food security.

We also advocate against summer water restrictions for garden centres and home gardens.

Building careers and skills in our industry

Our Plant Careers programme promotes careers in the industry, ensuring that young people are aware of the opportunities and see greenlife and garden retail as an attractive career option. We ensure that the education system includes high quality qualifications that encourage the mastery of skills.

We offer scholarships and opportunities for professional development, with our Young Plant Producer of the Year competition and the coveted Fraser Award. These programmes build critical skills and confidence for our future industry leaders.

We continue to offer networking opportunities through our annual conference, innovation days and other industry events, which are open to you and your team.

Your membership enables us to continue our work

Your membership fees enable us to provide these benefits on a not for profit basis. We firmly believe that investing in the industry will have significant benefits for you, your business and your team.

Annual fee structure for Industry Partners

Industry Partners fees are based upon turnover for nursery and garden industry products and services.

Under \$1 million turnover \$385 + GST

Over \$1 million turnover \$770 + GST

To protect confidentiality, annual membership fees are paid to an Independent Subscription Agent (ISA). All fees exclude GST.

If you have any questions about the benefits of NZPPI Industry Partner membership, please don't hesitate to contact us:

Matthew Dolan, NZPPI CE
Phone 027 622 9255, or email matthew@nzppi.co.nz,
www.nzppi.co.nz

Working together as an industry enables us to deal with complex challenges and sets us up for future opportunities.
